INTRODUCTION

Peekay CICS Arts and Science College, a self-financing college affiliated to the University of Calicut situated on the sprawling 16-acre campus at the green heights of Mathara, was established by the Calicut Islamic Cultural Society (CICS) in 2013. CICS has been in the forefront of social service during the last four decades. It aims at the uplift of the socially backward and the physically and mentally challenged sections of people by providing them with better educational facilities. The Higher Secondary School and the Teachers Training College on the campus have already scaled lofty heights in the educational sphere.

Within a short span of time, the college has successfully carved a distinctive niche in the temple of fame among all other self-financing institutions under the University. The college has been a perfect launching pad for furthering the aspirations of students aiming for academic advancement through quality education. Devoted and committed teachers including retired professors render their distinguished service.

Remedial coaching for weak students, close interaction between teachers, parents and students pave the way for enhancing academic brilliance. Better infrastructure facilities provided to the students - airy and spacious class rooms, well-equipped computer lab, psychology lab, full-fledged library, well-constructed playground, cafeteria, students' store, multipurpose auditorium, seminar hall, etc. make the institution unique.

Choice Based Credit Semester System (CBCSS) for Under Graduate Curriculum

A) Programme Structure

Students are admitted to undergraduate programmes. The duration of an undergraduate programme will be 6 semesters in a period of 3 academic years. The odd semester will be from June to October and even semester from November to March. Each semester will have a minimum of 90 working days inclusive of all examinations. Each programme has the following courses.

1. Common Courses
2. Core Courses
3. Complementary Courses
4. Open Courses
5. Elective Courses

Every student has to undergo 10 common courses. Core courses are the major (Core) subject of the degree programme chosen by the student. Core courses are offered by the parent department. The numbers of core courses vary from 10 to 18 including a project work. Complementary courses cover the one or two disciplines that are related to the core subject and are distributed in the first four semesters. There will be one open course in core subjects in the fifth semester. Open course will

be open to all students of the institution except for the students of parent department. The student can opt one subject offered by any other department of the institution. Each department can decide the open courses from a pool of three courses offered by the University.

Each department will also select one course as Elective from the courses offered by the Board of Studies of the particular discipline.

B) Exams

There will be University examinations at the end of each semester conducted by the University and two internal examinations conducted by the college. Mark scored by the student in the internal examinations will be one of the criteria for continuous assessment. Question paper may contain short answer, paragraph and essay type questions similar to University question paper pattern. Project examination will be conducted at the end of final semester.
